---

Osnovna dejavnost podjetja TERMO MR d.o.o., je proizvodnja temperaturnih tipal za meritve in regulacije temperature v vseh panogah industrije, v energetiki in v industrijskih laboratorijih.

Uporovne termometre, s senzorji Pt 100, Pt 500 in Pt 1000, izdelujemo po evropskih normah DIN IEC-751, v tolerančnih klasah A, B in 1/3 DIN B, za temperaturna območja od  $-250^{\circ}\text{C}$  do  $+800^{\circ}\text{C}$ . Izdelujemo jih v standardnih izvedbah in po zahtevah naročnikov, po njihovih skicah ali vzorcih.

Termoelemente izdelujemo po evropskih normah DIN IEC-584 : Fe-CuNi tip »J«, NiCr-Ni tip »K« in PtRh-Pt tipa »S« in »B« ter po DIN 43710 : Fe-CuNi tip »L«. Izdelujemo jih v ravnih in kotnih izvedbah, standardnih in nestandardnih dimenzij, klasično z žičnimi termopari v zaščitnih armaturah iz nerjavečega jekla, ognjeodpornega jekla, keramike in drugih materialov, ki jih narekujejo merjeni mediji, temperature in pogoji dela.

Posebna vrsta so plaščni termoelementi, ki so zaradi svojih dimenzij in gibljivosti zelo uporabni.

Izdelujemo tudi vtične termoelemente in uporovne termometre, predvsem za potrebe industrije predelave plastičnih mas in prehrabene industrije.

Za primere kjer klasična tipala niso primerna, ponudimo stacionarne in prenosne brezkontaktno merilce temperature.

Seveda k tipalom ponudimo tudi ves pribor in opremo za njihovo vgradnjo, priklop in delovanje, kot so vgradni in priključni elementi, konektorji, izenačevalni vodniki, merilni pretvorniki, digitalni indikatorji, regulatorji in registratorji.

*TERMO MR d.o.o. (ltd.) is a company which produces temperature probes to measure and regulate temperature in all types of industry, energetics and industrial laboratories.*

*Resistance thermometers with sensors Pt 100, Pt 500 and Pt 1000 are produced in compliance with European norm standards DIN IEC-751, in tolerance classes A, B and 1/3 DIN B, for temperature ranges from  $-250^{\circ}\text{C}$  to  $+800^{\circ}\text{C}$ . They are made in standard form and also according to customers' requirements, their plans or samples.*

*Thermocouples are manufactured in compliance with European norm standards DIN IEC-584: Fe-CuNi type »J«, NiCr-Ni type »K« and PtRh-Pt type »S« and »B« as well as in compliance with DIN 43710: Fe-CuNi type »L«. They are available in straight and in angle shape, in standard and non-standard dimensions, classic models with wire thermopares in protective reinforcement made of stainless steel, fire-proof steel, ceramics and other materials which depend on the measured media, temperature and work conditions.*

*Due to their dimensions and flexibility mineral insulated thermocouples are particularly useful.*

*Also probes for machinery measurements and resistance thermometres are produced, mainly for plastic recycling industry and food industry.*

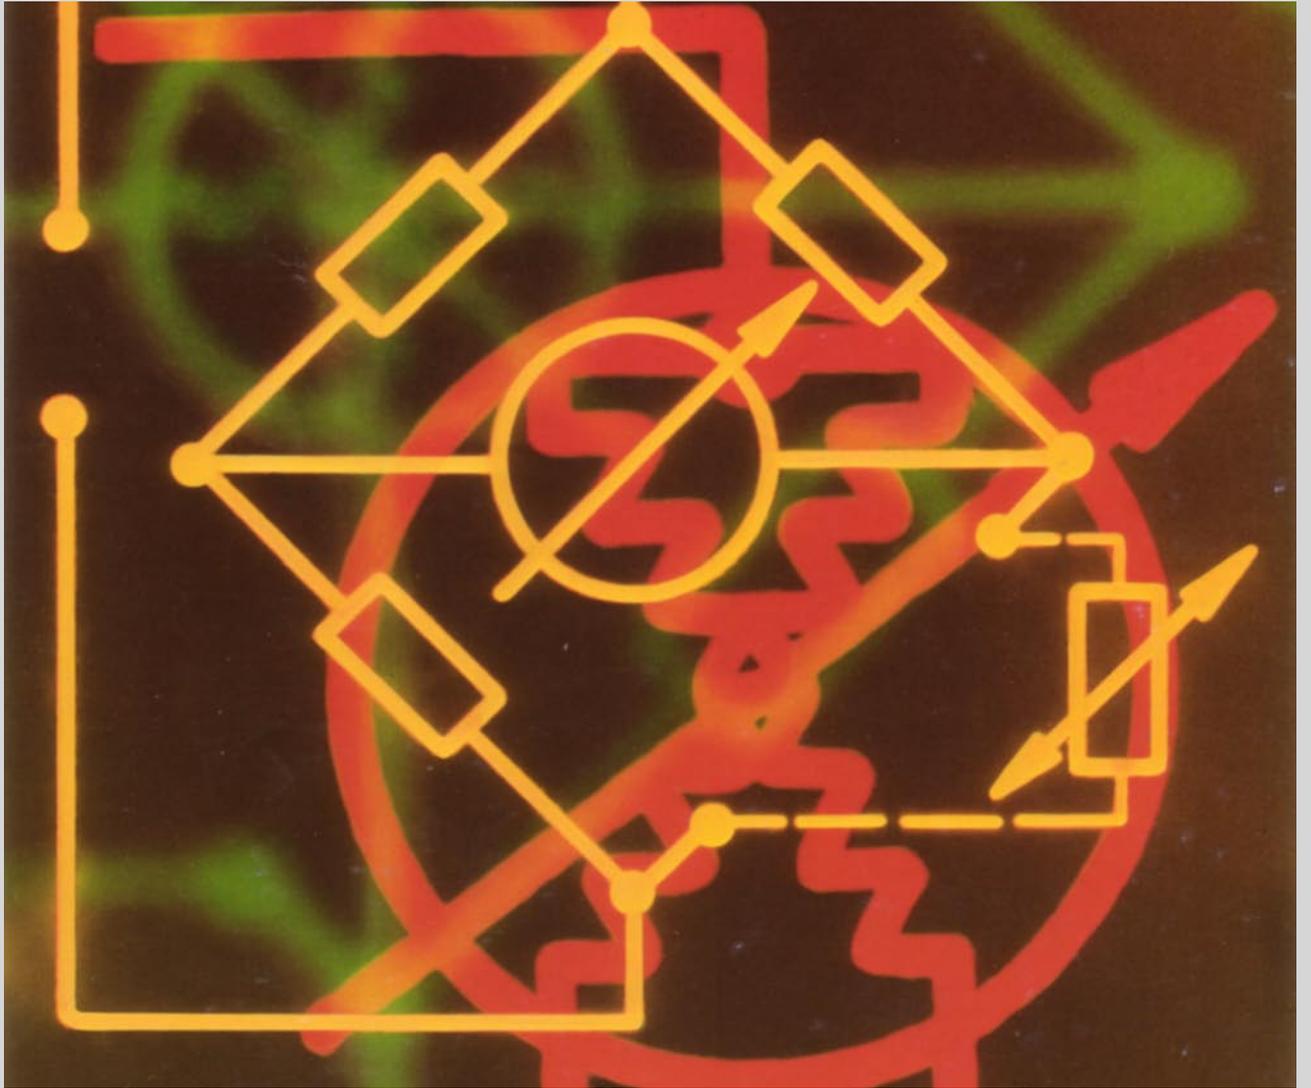

*Where classic probes are not suitable, stationary and handheld non-contact thermometers can be supplied.*

*Besides the probes, a complete range of tools and equipment for their installation, connection and functioning is available, e.g. installation and connection elements, connectors, conductors, transmitters, digital indicators, controllers and registrators.*

OZNAKA	Zaščitna cev	ZC
	Cev za vpihovanje	BR
IZVEDBA	Litoželezna cev s keramično prevleko	KIK
	Jeklena cev z oblogo Si karbida	SIC
	Industrijska keramika SYALON	SIA
	Grafit	GRT
VGRADNA DOLŽINA	Vpiši dolžino v mm	

## ZC-KIK

**Uporaba**  
Application

Zaščitna cev za termoelemente pri kontinuiranem merjenju temperature Al in Zn talin.  
Aluminium and zinc melting furnaces or other applications where mechanical impact is likely.

**Material**  
Material

Lito železo prevlečeno s keramiko  
Ceramic coated cast iron

**Temperaturna obstojnost**  
Temperature existence

Max. 800°C

**Predgretje**  
Preheating

Ni potrebno  
Not required

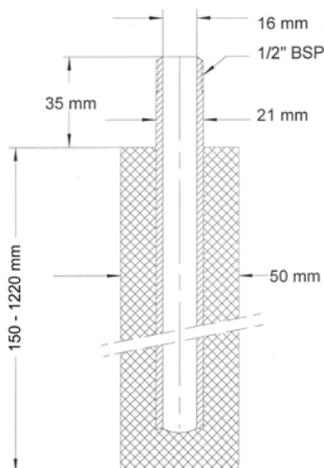

**Priključek**  
Connection

Notranji navoj NPT 3/4"  
Inside thread 3/4"

**Dimenzije**  
Dimension

Ø 43x10xL  
L = 305, 460, 610, 760, 915, 1065, 1220, 1370, 1525, 1830

## ZC-SIC

**Uporaba**  
Application

Zaščitna cev za termoelemente pri kontinuiranem merjenju temperature Al in Zn talin, posebej v odprtih plamenskih pečeh in strojih za tlačni liv.  
Aluminium and zinc Holding/casting furnaces, filter boxes. Degassing units, pouring trough.

**Material**  
Material

Jeklena cev W.Nr. 1.4762 / DIN X 10 CrAl 24 z oblogo iz silicijevega karbida.  
Isostatic pressed Silicon Carbide with carbon matrix bonding.

**Temperaturna obstojnost**  
Temperature existence

Max. 1000°C

**Predgretje**  
Preheating

Ni potrebno  
Not required

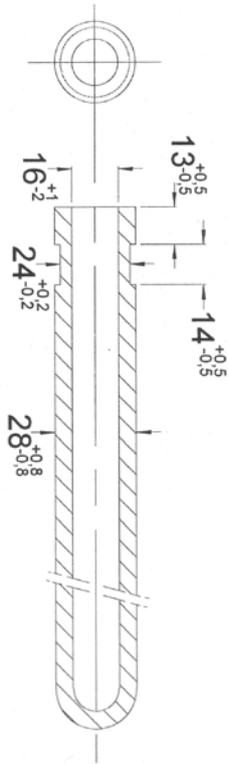

**Priključek**  
Connection

Zunanji navoj NPT 1/2"  
Outside thread NPT 1/2"

**Dimenzije**  
Dimension

Ø 50xL  
L = 405, 475, 610, 760, 915, 1065, 1220

## ZC-SIA

**Uporaba**  
Application

Zaščitna cev za termoelemente pri kontinuiranem merjenju temperature Al, Cu, Mg, Zn talin.  
Aluminium, copper, magnesium, zinc. Degassing units, pouring trough.

**Material**  
Material

Keramika SYALON, se ne sprijema z aluminijem in je zelo odporna proti keroziji. Garancija 12 mesecev  
Syalon protection tubes with a specially developed high quality long life element.

**Temperaturna obstojnost**  
Temperature existence

Max. 1350°C

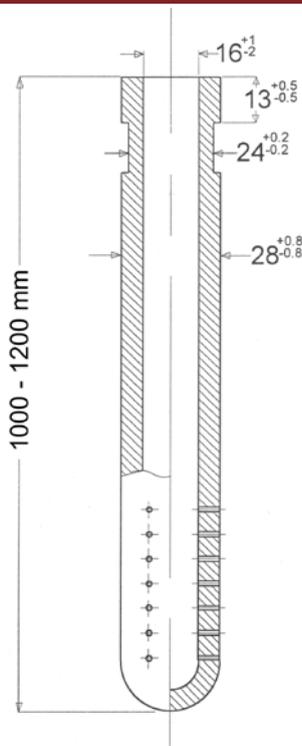

**Predgretje**  
Preheating

Ni potrebno do 850°C  
Not required up to 850°C

**Dimenzije**  
Dimension

Ø 28x6xL  
L = 460, 610, 760, 915, 1065

## SYALON-FXP

**Uporaba**  
Application

Vpihovanje plinov ali soli v Al taline.  
Degassing (fluxing) of aluminium with inert or reactive gases.

**Material**  
Material

Syalon

**Temperaturna obstojnost**  
Temperature existence

Max. 1000°C

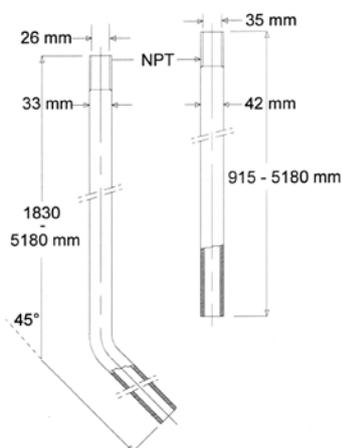

**Predgretje**  
Preheating

Ni potrebno do 850°C  
Not required up to 850°C

**Dimenzije**  
Dimension

1000 – 1200mm

## CCCI-FXP

**Uporaba**  
Application

Vpihovanje plinov ali soli v Al taline, predvsem kjer so cevi iz grafita ali Si karbida neprimerne zaradi možnosti lomljenja  
 Degassing (fluxing) of aluminium with inert or reactive gasses in environments where the tube is subjected to mechanical force

**Material**  
Material

Litoželezna cev z zunanje in notranje strani prevlečena s keramiko  
 Steel, ceramic coated in-and outside

**Temperaturna obstojnost**  
Temperature existence

Max. 800°C

**Predgretje**  
Preheating

Ni potrebno  
 Not required

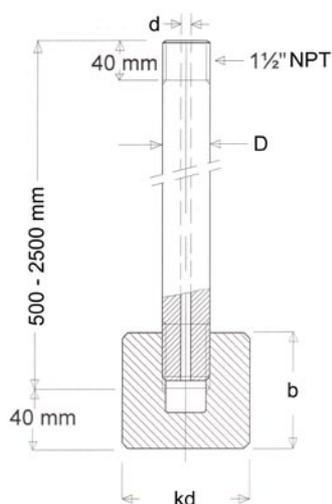

**Priključek**  
Connection

Notranji navoj NPT 3/4"  
 Inside thread NPT 3/4"

**Dimenzije**  
Dimension

280mm...1800mm

## GRAFIT-FXP

**Uporaba**  
Application

Vpihovanje plinov ali soli v Al taline.  
 Degassing pipe with or without porous head.

**Material**  
Material

Grafit  
 Graphite

**Temperaturna obstojnost**  
Temperature existence

Max. 1000°C

**Predgretje**  
Preheating

Ni potrebno  
 Not required

**Priključek**  
Connection

Zunanji navoj NPT 1 1/2"  
 Outside thread NPT 1 1/2"

**Dimenzije**  
Dimension

500mm do 2500mm	standardna dolžina 1250mm
CEV	POROZNA GLAVA
D x d	kd x b
52 x 12	100 x 100

## Digitalni prikazovalniki in regulatorji

**C1**

**Controller-Indicator-Transmitter**

- single action controller
- indicator with alarms
- indicator-transmitter
- size 48 x 24 x 120 mm

**M1**

**Controller-Indicator-Transmitter**

- single action controller
- indicator with alarms
- indicator-transmitter
- size 48 x 48 x 120 mm

**M3**

**Heat-Cool Controller**

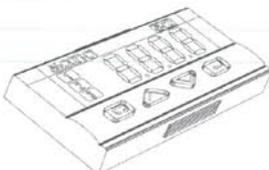

- single or double (heat-cool) action controller with current transformer input
- size 48 x 48 x 120 mm

**M5**

**Process Controller - Setpoint Programmer**

- process controller
- setpoint programmer
- continuous and floating (three steps) output
- auxiliary I/O
- adaptive tune
- size 48 x 48 x 150 mm

## Digitalni prikazovalniki in regulatorji

### X3

**Double action controller  
with analogue output**

- Heat-Cool
- valve drive output
- Auto/Man
- size: 48 x 96 x 110 mm

### X1

**Heat / Cool  
temperature controller**

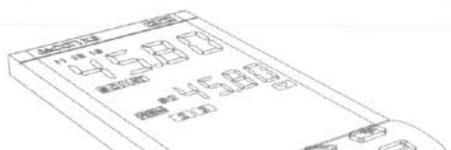

- 3 relay outputs
- Start-up
- Timer
- current transformer input
- size: 48 x 96 x 110 mm

### X5

**Process controller  
with PROFIBUS DP and Master/Slave Modbus**

- update time: 50 ms
- 2 analogue outputs
- Setpoint programmer
- memory chip
- size: 48 x 96 x 110 mm

## Digitalni prikazovalniki in regulatorji

### The products

#### Multifunction Programmable Controller

**AC STATION** The "AC Station" is a series of powerful, flexible and expandable micro DCSs

- that fills the gap between SLC and mini DCS with:
- 4 - 8 analogue inputs
- 4 - 8 analogue outputs
- 8 - 24 digital inputs
- 8 - 24 digital outputs
- 2 - 3 serial communications ports
- 1 LAN communications port
- 4 advanced PID algorithms

Compact, 72x144 size, only 260 mm deep. High resolution graphic display with interactive guided menu, bargraph pages, trends, alarms, etc. for a simple Man Machine Interface.

Complete freedom to design your control strategy with user friendly graphic tool.

No programming language needed. Twelve of the most common pre-programmed control strategies are also included.

Serial communications, Master/Slave and high speed Peer-to-Peer for the exchange of resources and/or integration in higher level systems.

Three protected access levels for the control strategy design, start-up and operation.

- 12 Timers and counters**  
Totalizers  
Counters with reset  
4 types of timers
- 11 Control**  
Advanced PID algorithm with 2 degrees of freedom for a correct control response during both Set point and load changes.  
Intelligent tune "InTune"  
Gain scheduling  
Bumpless  
Feed forward  
PID saturation signalling
- 10 Analogue outputs**  
Min max Limits  
Rate limits  
Safety value  
Tracking  
Hold  
Min max signal forcings  
Heat/Cool outputs
- 9 Set point Management**  
Local-Remote,  
Safety Set point  
4 stored values  
4 priority levels
- 8 Complex expressions**  
freely configurable  
i.e. Koch's equation of state  
$$v = \frac{RT}{P} - \frac{A}{\left(\frac{T}{100}\right)^{2.82}} - p^2 \left[ \left(\frac{B}{T}\right)^{34} + \left(\frac{C}{T}\right)^{31.4} \right]$$
- 7 Protection**  
Different access for project engineer, start-up engineer and operator  
Set Point, Output, Input limits  
Keyboard lock  
Auto-diagnosis  
Remote tech-support
- 6 Logic functions**  
AND/OR/EXOR/NOT  
Flip-flop  
Select - deselect logic
- 5 Comparators, selectors**  
Max min selection  
Limiter  
Rate limiter  
Analogue - digital multiplexer
- 4 Alarms**  
Absolute  
Deviation  
Rate
- 3 Mathematical functions**  
Addition - Subtraction  
Multiplication - Division  
Absolute value  
Square Root  
Power  
Sine - Cosine  
Exponential - Derivative  
Nat.-Common logarithm
- 2 Input conditioning**  
Linearization Table  
Polynomial linearization  
Thermocouple output linearization  
RTD output linearization  
Scale changes  
Engineering units  
Square Root  
Digital filter  
Temperature compensation  
Pressure compensation
- 1 Display pages**  
Bargraphs (1, 2, 3 or 4)  
Trends  
Alarms, logic status and signal forcings  
Guided and interactive menus  
Parameters  
Others, freely programmable

## Digitalni prikazovalniki in regulatorji

### RC/RS Series Industrial hybrid recorders

#### RC/RS100 series

- Recording width 100 mm
- 1,2,3,4 pens or 6 dot channels
- Universal inputs
- Accuracy  $\pm 0,1\%$
- Up to 6 alarm relay outputs
- RS422
- 144x144 DIN

#### RC/RS180 series

- Recording width 180 mm
- 1,2,3,4 pens or 6,12,18,24 dot channels
- Universal inputs
- Accuracy  $\pm 0,1\%$
- Up to 24 alarm relay outputs
- RS422
- 288x288 DIN

### TH Series

#### Configurable Thyristor power controllers

- Single and three-phase
- Nominal voltage: from 230 to 660 V
- Rated current: from 30 to 1900 A
- Operating modes: full wave, switching phase, angle firing
- Control characteristics: voltage, current or power feedback
- Resistive, inductive and transformer loads
